

Development of new Shopify Plus Website

Case Study

Your knowledgeable team provided us with expert assistance and kept us informed every step of the way in the development of our new site. They were very responsive to our requests, and provided daily updates to the status of the project.

We were impressed that you were even able to create custom solutions for some of our needs and always supplied options for us to choose from based on our need and budget. Due to your diligent work and effective communication along the way we were able to complete our project on time and on budget.

This has been our best experience working with an overseas development team and based on that, we would not only recommend you to others but we also look forward to working with you on future projects.

Co-Founder/Managing Director
David Michaels

It was (and is) a pleasure to work with you and your team. We learned many things along the way as well. You absolutely exceeded our expectations with regard to your responsiveness and attention to detail. We appreciate the hard work and knowledge from you and your team and look forward to working together again as we further develop this site and possibly on future projects.

Customer :

HAIRMAX (LEXINGTON INT,LLC)

Website :

www.hairmax.com

Location :

Boca Raton, Florida, USA

Industry :

Health and Wellness

Customer Profile :

HairMax is recognized as the pioneer of at-home hair regrowth technology and the undisputed global leader in the field.

Highlights

- Complete website was revamped by redesigning and adding new functionalities.
- Complete customization was done for home page, products, collections, menu, cart, checkout pages and other components.
- Total 12 man months effort was spent on this website.
- Lot of complex customization and addition to themes were done.
- Client is highly impressed with our expertise and efforts.

The Problem

Client wanted to do a major transformation for their Shopify Plus website and were looking for a trusted overseas partner who can take up the challenge and deliver the right solution in given timelines.

The Solution

Once client approved our proposal, we started working on this project. There were daily status reports and daily calls between both the teams. All complex customization were done by highly experienced offshore team. Multiple out of the box modules were created. We have in-fact created changes in the original themes as well to cater to some complex requirements.
